

LUXURY LIVING

## Mother's Day Gift Guide

### Soy Delicious

Mom will love Soy Delicious, a name that depicts the melting pot that makes up our multicultural community, with a play on the word “soy” meaning “I am.” Soy Delicious candles truly are delicious in every sense of the word. The hand-poured candles are filled to the brim, rich with aroma from the high concentration of fragrance oils that are added. The magnificent scent will fill every room in your home and the wide array of scents is sure to entice the senses of all, from exotic and tropical to calming and relaxing. Once the candle liquefies, dip your finger or dipping spoon into the soy and use the oil as a rich moisturizing protein rub to keep hands, feet, cuticles and elbows, soft and luxurious; like a personal spa experience in the comfort of your own home.
